RAGHU RAMAN V

FRONTEND DEVELOPER

Poonamalle, Chennai | raghuraman.v.2023.mech@ritchennai.edu.in | www.linkedin_profile.com

OBJECTIVE

I'm a mechanical engineering graduate with a strong interest in full-stack development and cybersecurity. I'm keen to build practical, secure web applications and grow by working on real-world projects with a good development team.

EDUCATION

Pursuing Bachelor of Engineering   **2023-2027**
Rajalakshmi Institute of Technology
B.E. Mechanical Engineering
CGPA - 7.93% (up to 4th semester)

HSC (12th Standard)   **2022-2023**
Subramani Sastria Higher Secondary School
Bio - Maths Group
Percentage - 82%

PROJECTS

Briquettes Mixture and Manufacturing   **2025**
IFET College, Villupuram
- Participated in a team project focused on creating briquettes using eco-friendly materials.
- Contributed to the design and basic setup for mixing and shaping processes.
- Gained practical exposure in sustainable fuel production and basic manufacturing methods.
- Received a certificate of participation.

Responsive Job Portal Frontend UI

Self Project – July 2025
- Designed a fully responsive job portal interface using HTML, CSS, and JavaScript.
- Included sections for job listings, filter options, and an application form layout.
- Focused on clean UI/UX design and mobile-first responsiveness
