Chennai, India • +91 86808 83880 • <mailto:raghuraman.v.2023.mech@ritchennai.edu.in> • [LinkedIn](#) • [Portfolio](#)

CAREER OBJECTIVE

Motivated and detail-oriented Mechanical Engineering student seeking a Designer / Mechanical Design role. Possess hands-on exposure to SolidWorks and engineering concepts, along with practical manufacturing and industrial automation experience. Interested in developing accurate 3D models, engineering drawings, assemblies, and design solutions while continuously improving technical skills and contributing to organizational goals.

DESIGN & TECHNICAL SKILLS

- CAD / Design: SolidWorks, 3D Part Modelling, Assembly Modelling, Basic Engineering Drawing, Design Fundamentals
- Mechanical: Manufacturing Processes, Production, Industrial Automation, Engineering Materials, Measurement & Quality Concepts
- Robotics / Automation: ABB Industrial Robots, Robot Operation, Paint-Shop Automation, Process Monitoring, Troubleshooting.
- Software & Tools: MS Office, VS Code, Git & GitHub
- Additional: Python, Java, JavaScript, Cyber Security Fundamentals

INTERNSHIP EXPERIENCE

Paint Shop ABB Robot Programmer Trainee | SMRC Automotive Modules India Pvt. Ltd. | Nov 2025 – Apr 2026

- Worked with ABB industrial robots in an automated automotive paint-shop environment.
- Gained practical exposure to robot operation, process monitoring, troubleshooting, and teamwork.
- Developed understanding of automated manufacturing processes and shop-floor problem solving.

Hub Motor Stator Assembly & Manufacturing Intern | SONA COMSTAR, Maraimalai Nagar

- Observed and studied hub motor stator assembly and manufacturing processes, including winding, varnishing, stripping, testing, and related production operations.
- Gained exposure to process parameters, quality checks, cycle-time considerations, and continuous-improvement activities.

ACADEMIC / DESIGN PROJECTS

Development and Characterization of Sustainable Eco-Bricks Using Prosopis juliflora (Karuvelam) Biochar for Green Construction Applications

- Investigated the use of Prosopis juliflora biochar with fly ash-based brick materials for a sustainable construction application.
- Studied material properties and testing considerations relevant to eco-brick development.

Briquettes Making Project

- Worked on a briquette-making system using Mild Steel IS 2062 plate, SS Grade 304 perforated sheet, and wire mesh.
- Applied mechanical design and manufacturing concepts in developing the project.

EDUCATION

B.E. Mechanical Engineering | Rajalakshmi Institute of Technology, Chennai | 2023 – 2027

HSC – 12th Standard | Subramani Sastria Higher Secondary School | 2022 – 2023 | Bio-Maths | 82%

SSLC – 10th Standard | Subramani Sastria Higher Secondary School | 2020 – 2021 | All pass

CGPA: 7.94 / 10 (up to 6th Semester)

CERTIFICATIONS

- SolidWorks Certification — Dassault Systèmes
- Ethical Hacking — NPTEL
- Python Programming — SoloLearn
